Fielders DeckSpan

Fielders DeckSpan combines the strength of steel and simple installation to provide an aesthetic and economical solution for your decking project.

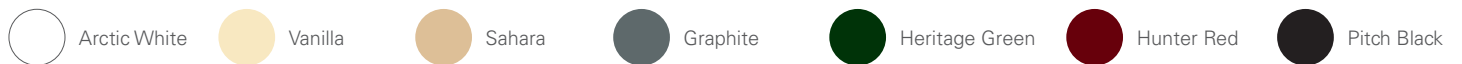

The innovative steel flooring system provides a fully engineered solution that suits your individual requirements. With a variety of colours and various beam sizes available, Fielders are sure to have the system to suit your next project.

The DeckSpan system has been specifically designed to complement the Fielders Centenary range of patios and verandahs to complete your new outdoor living space.

All this and backed by Fielders 10 year structural guarantee, ensures peace of mind to enjoy your new entertaining area for years to come.

Fielders DeckSpan Key Benefits

- Peace of mind with the strength of steel
- No worry of termites, rotting or warping
- Large span capability ensures an economical solution
- Ease of installation as DeckSpan is supplied as a pre-cut system for your specific project
- Minimal maintenance means more time to relax
- Available in a wide range of colours to complement your outdoor living area
- Flexibility to have different coloured external and internal beams for a professional finish
